

The permit has been amended to allow for flexibility in the use of currently authorized instruments (i.e., satellite-linked time-depth recorders using ARGOS technology; satellite-linked time-depth recorders using Global Positioning technology (GPS); and video cameras) on the 11 monk seals remaining to be instrumented at French Frigate Shoals. These animals may be instrumented with satellite-linked time-depth recorders, GPS units, or camcorders. This amendment involves no increase in the originally authorized take.

Issuance of this amended permit as required by the ESA was based on a finding that such amendment: (1) Was applied for in good faith; (2) will not operate to the disadvantage of the endangered species which is the subject of this amended permit; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: October 3, 1996.

*Chief, Permits & Documentation Division,
